Swiss International College of Osteopathy

19.-20 June 2023

Philippe Druelle D.O

We are pleased to invite you to take part in the **seminar**

HOW TO WORK WITH THE BREATH OF LIFE DAILY IN OUR PRACTICE TO RELIEVE OUR PATIENTS?

During these two days, Philippe Druelle, D.O. will hold an exceptional course on the Life field and the Breath of Life as taught and transmitted by Sutherland, Rollin and Alan Becker, Anne Wales, Colin Dove, Jacques Andréva Duval, and Viola Frymann. Since 1948, Sutherland began incorporating it into his mode of evaluation, treatment, and teaching, while discovering the power of fluids and fluids.

We will take as our starting point this phrase from Rollin Becker, D.O.:

"The goal of our practice is to permit the Breath of Life to come back in this area. Everything is in balance as I feel a force going through me, my hands, and the patient before returning to its point of origin."

This seminar will focus on practice, and we will begin by conducting experiments to recognize the moment when we resonate with this universal force in order to work with it in conjunction. Numerous topics will be

covered, such as Potency, the biodynamic force, the difference between the balance point and the fulcrum, between the still point and stillness, the driving force, etc.

The objective of this seminar is for participants to be able to use these modes of work and the knowledge acquired with their patients at the end of these two days. We will also provide methods and advice for easily integrating this Breath of Life work with the vagus nerve to combat the inflammatory process, stimulate immune defenses, and relieve pain.

Philippe Druelle, D.O., has had mentors such as Alan Becker, Anne Wales, Viola Fryman, Thomas Schooley, Harold Magoun, etc. His goal is to transmit the experience of the Ancients and his own experience for 42 years. A large part of his results with patients is related to our resonance with the Breath of Life and the Life field.
